RE: FOIA EPA-R9-2014-003064

Dear Miss Ho:

This e-mail is in response your *Freedom of Information Request* of 1/28/2014 regarding the water treatment plant at the Olivenhain Municipal Water District (PWS ID CA3710029).

Attached is a report from EPA's national drinking water database, the *Safe Drinking Water Information System*. The report displays data reported by the California Department of Health (CDPH) to EPA regarding the public water system. You'll see by looking at the report that States are only required to report a limited amount of data regarding water system facilities. Although treatment processes are listed, information is not reported to EPA on average flow or on-site equipment.

Olivenhain MWD is located in CDPH's San Diego District. The District Engineer for that area is Sean Sterchi. Mr. Sterchi can be reached at (619) 525-4159 or [sean.sterchi@cdph.ca.gov](mailto:sean.sterchi@cdph.ca.gov). He may be able to provide to you the additional information you are seeking about this water system.

Please feel free to contact me if you have any questions regarding the attached report.

Sincerely,  
David Schmidt
